Dear Sir / Madam

We cordially invite you to participate in One Day State level Student Seminar on "Changing Scenario in Banking and Business" with focus on Banking and Business on Monday, 13th February 2023.

About College

About Four decades back there was no college in the vicinity of 80 kms offering commerce degree course. In 1975, considering the need of the people of Jamakhandi, Mudhol, Raibag and Athani Talukas, the management took a bold decision to start a first grade college with "Bachelor of Commerce" course to begin with. The motto of late Shree Tammannappa Chikkodi, founding father of the Sangha, was to bring higher education to door steps of the down trodden and the weaker sections of the society in general and weaver community in particular.

The Sangha started "Bachelor of Arts" Course in June 1982 to provide an opportunity to the students to pursue higher education in the field of their choice. The course provides wide options to the students. The college was renamed "Shree Tammannappa Chikkodi Arts and Commerce College".

The Sangha started "Bachelor of Business Administration" (BBA) course in 1999. "Bachelor of Computer Applications" course was started in 2001. In 2009 Master of Commerce (M.Com), and 2014 Master of Arts in English, B.Sc. & in 2022 Research Centre was also introduced.

Introduction:

Banks are a very important part of the economy because they provide vital services for both consumers and businesses. Banks provide a secure way to store, protect and provide access to customer deposits. Consumers can conduct routine banking transactions through checking accounts, ATMs and electronic transfers while earning interest on their deposits held in deposit accounts like savings, certificates of deposits and in certain demand deposit accounts. Banking in the 21st century means being able to conduct all transactions digitally without needing to physically visit a branch location. Deposits, withdrawals, payments, and transfers can be conducted online or by phone app as well as applications for credit cards and loans.

Business development encompasses a wide scope of ideas, activities, and initiatives that a business owner and management implement with the goal of making the business better. Business development can include many objectives, such as sales growth, business expansion, the formation of strategic partnerships, and increased profitability. Successful business development impacts every department within a company, including sales, marketing, manufacturing, human resources, accounting, finance, product development, and vendor management. Business developers should be aware of new market opportunities, possibilities for expansion, competitor developments, and the current sources of the company's revenue.
